About the Company

Bondiqu (PT Bondi Sugih Rahayu), a limited liability company registered in Indonesia, is an integrated service company offering comprehensive solutions in the fields of tourism, transportation, event organization, professional training, outbound activities, souvenir provision, catering services, and construction.

Embracing the concept of “unique & integrated service,” Bondiqu enables clients to access a wide range of services efficiently under one professional umbrella. With a strong emphasis on quality, innovation, and customer satisfaction, Bondiqu has established itself as a trusted partner for individuals, educational institutions, communities, and corporations in designing and executing various activities and operational needs.

Supported by a competent team and a strategic cross-sector partnership network, Bondiqu continues to grow as an adaptive, visionary, and high-standard company, carrying the mission of empowering local potential through world-class services.

Company History & Evolution

The origins of Bondiqu trace back to 2015, when Kristina's mother began a small-scale business in domestic tourism. Motivated by a deep passion for travel and a desire to showcase the beauty of Indonesia, the initial idea for the business was born.

In 2017, Kristina became actively involved, bringing a more professional approach to the development of the venture. The brand GIFTour & Trans was introduced, reflecting a focus on educational tourism and transportation services.

A significant milestone came in 2020 when Kristina gave her newly adopted kitten the name "Bondi," inspired by Bondi Beach in Sydney, her favorite destination during her time living in Australia. The name "Bondi" was soon adopted as the new brand identity, becoming Bondi Tour, which embodied a warmer, more personal, and professional service experience.

As the company expanded into various service sectors, it officially rebranded in 2024 as Bondiqu, a name derived from the combination of "Bondi" and "Unique." This new identity reflects the company's innovative, distinctive, and integrated approach to service. On 18 June 2024, Bondiqu launched www.bondiqu.com to unify its digital presence and extend its reach to a worldwide audience.

About the Founder

KRISTINA (CHICHI BONDI)

CHIEF EXECUTIVE OFFICER & FOUNDER OF BONDIQU

Kristina, professionally known as Chichi Bondi, is the founder and driving force behind the transformation of Bondiqu. She pursued her education and professional training in Australia, earning an Advanced Diploma of Hospitality Management from the Ashley Institute of Sydney, as well as certification from the Law Act Board, Government of New South Wales, in laws and regulations governing the service industry.

With over a decade of experience in Australia's hospitality sector, Kristina served as General Manager at Broadway Bar & Lounge in New South Wales and was actively involved in organizing official events for the Australian Government, including functions for the Prime Minister. She is also a certified professional chef, specializing in international cuisine and premium food service.

In late 2015, Kristina returned to Indonesia to assist her mother in developing the family's tourism business. Between 2016 and early 2017, she traveled extensively across the archipelago to gain firsthand insight into the country's tourism potential, cultural richness, and local wisdom. This journey solidified her vision of building Bondiqu as a company that integrates international service standards with local values, while maintaining a strong commitment to sustainability and the empowerment of regional tourism industries.
